The State of Indiana has implemented an Electronic Procurement (E-Procurement) system which is an internet based system allowing State of Indiana agencies to place electronic orders with vendors through electronic catalogs resulting from a conventional procurement method.

As a part of making this system operational, the information that is being requested on each line item is a requirement, not an option. Failure to complete/supply the requested information when you submit your offer/bid could result in your offer/bid being found non-responsive.

The manufacture name and manufacturer part # is where you identify the manufacturer and part number of the product you are offering/bidding.

The M/WBE requirement is asking you to identify if that particular line item is supplied by Minority or Women Owned firm. The values to use are as follows:

Minority = M

Women = W

No = N

The awarded vendor must maintain, at a minimum the information listed below in excel format and supplied to the State within one week of the request.

The report must include purchases from State Agencies and any Political Subdivision's purchases.

- * Entity Name
- * Entity Address
- * Date of Order
- * Purchase Order Number
- * Description of Goods Ordered
- * Quantity
- * Order Total

As required by IC 4-13-2-14.8:

Notwithstanding any other law, rule, or custom, a person or company whom has a contract with the State or submits invoices to the state for payment shall authorize in writing the direct deposit by electronic funds transfer of all payments by the state to the person or company. The written authorization must designate a financial institution and an account number to which all payments are to be credit.
